3/23/2020

To our Suppliers and Customers:

With the COVID-19 outbreak each of us needs to stay safe and do what we can to keep the country moving.

H & H Welding and Repair will be staying open. We are here to supply the infrastructure workers and businesses with the critical supplies and repairs to keep them up and running. We have customers and work with the State, City and County Police, Fire, Sanitation, Critical Manufacturing and more. We also have work/jobs with transportation/trucking, shipping, power plants, road repairs, sanitation, trash collection, aerospace, aircraft, farming, food production, ethanol and the cyclotron, auto suppliers, and many more.

This is a fast moving event, things may change. If you would like to be on our contact list if our status changes please contact us at 517-676-1800 or roberta.somerville@hhwelding.com.
